

JOB APPLICATION

EU Projects Materials and Textiles Lead

Fab Lab Barcelona is part of the Institute for Advanced Architecture of Catalonia, where it supports different educational and research programs related to the multiple scales of the human habitat. It engages in European research across multiple lines of enquiry including design, distributed manufacturing, cities and culture.

The job position of EU projects Projects Materials and Textiles lead requires both a technical and management profile that is able to deliver the following main tasks:

- Responsible for the management and/or implementation of materials and textiles research projects (i.e. Shemakes) and educational programs (i.e. Fabricademy).
- Design and development of educational projects on the field of fashion and textiles.
- Lead co-creation processes with the local community around waste recycling and materials innovation.
- Manage the Fab Lab Material Library and workflows across all laboratories.
- Production of educational contents for the Fab Lab programs and training.

Competences (Experience, Knowledge and Skills):

- Excellent communication skills in English and Spanish, both oral and writing.
- Special interest in technology, digital transformation and innovation.
- Proven communication expertise on educational programs development.
- Proven experience working in the Fab Lab network.
- Knowledge on biomaterials and applications research.
- Proactive, self-sufficient, reliable, and friendly behavior.
- Strong teamwork and leadership capabilities.
- Ability to work across multiple projects and topics.
- Availability and willingness to travel abroad for project meetings.
- You enjoy working in an international environment and connecting with young people from all over the world.
- You can work remotely and are highly motivated and organised.

Specific Requirements:

- An EU national, or with a working permit for Spain.
- Fluent in English – other languages are a bonus.
- Knowledge and/or specific interest in the fields of innovation and research.
- 5 years experience in participation in previous/ongoing European Projects (in particular, Horizon 2020).

CONTRACT DETAILS

- Full time position: 40 h week, from Monday to Friday.
- Date of start: January 2020.
- Salary: 25-30.000€ per annum. According to experience.

DEADLINE AND APPLICATIONS SUBMISSION

The application period will close on 24th of December 2020.
