

STATE OF THE ART(S) CATALOGUE

Call for Project

reCITYing opens this call for projects to **collect international good practices which combine architecture and art performances in order to regenerate abandoned heritages, buildings and spaces in the city.**

reCITYing has the ambition to establish a networking platform and exchange based the principle of **temporary reuse** and co-creation of spaces in a European perspective. The call is aimed at young creatives and professionals from architecture, urban and product design, event designers, art institutions and performers to foster a wider knowledge creation on urban regeneration strategies and artistic laboratories open to the city as cultural incubators.

CATEGORIES

The Catalogue will display innovative urban regeneration project from four different perspectives:

Architecture + Performative arts

i.e. Architecture, scenography, ballets, performing arts, costumes with recycled materials, living theatre

Architecture + Land arts

i.e. LandArt, food waste, promenades, floating/hanging tents, landscape installations, nature-based solutions

Architecture + Music

i.e. Music stages, jam sessions, design for music, music/sensorial experiences, music transect walks, informal orchestras

Architecture + Visual arts

i.e. Visual arts, video mapping, street arts, electronic installations, participatory arts, architectural folly

PRIZES

12 top ranked entries (3 per each categories) will be exhibited in a dedicated poster session at the 2025 edition of the International FAV Festival in Montpellier. They winning projects will be promoted through the project website and communication channels. **40 selected and ranked entries will be published** in the State of the Art(s) reCITYing Catalogue as open access on-line publication (with ISBN).
